

HP Compaq Tablet PC TC1100

The ultra-mobile PC that works your way

When business demands are constantly changing, you need to adapt fast to keep ahead. And your IT has to do the same. Sometimes you'll need the mobility of a notebook. Other times, the convenience of a pen and paper. And frequently, the productive power of a desktop. With the new HP Compaq Tablet PC TC1100 you can take all three in one versatile, ultra-mobile business tool.

Now you can work in more ways and places than ever before – and keep ahead of changing business demands.

Everything you expect from a notebook PC... and much more

- **Adapt to your changing needs** with an ultra-portable device that has the flexibility of a notebook, the convenience of a pen and paper and the power of a desktop. Alternate between notebook and tablet by detaching the removable keyboard, or slide it into the docking solution for a full desktop experience.
- **Speed through demanding tasks as you would in the office.** Choose Intel® Pentium® M (Centrino-technology) processing for high performance, allowing you to work harder and longer on a single battery charge.
- **Capture information the way that feels most natural.** You can make handwritten notes directly on screen or into your choice of application using the tablet configuration.
- **The perfect tool for face-to-face meetings.** Create a seamless flow of information, with no barriers. When you finish a meeting, simply convert your notes into text or save them as digital ink, then send them to colleagues and customers wirelessly.
- **Keep on working!** The TC1100 is so thin, light and flexible, it can be used wherever you find yourself – at your desk, in the meeting room, or down a corridor. And with integrated wireless, Bluetooth™ and Fast IR, you'll keep connected wherever you go.
- **Work with all your usual software and applications.** With the TC1100, you can harness unique Tablet PC software capabilities. It runs on Microsoft® Windows® XP Tablet PC Edition, featuring familiar Windows XP Pro functionality and applications, and much more.

Ultimately adaptive – choose the set-up that's right

Use it as a notebook

Built using industry-standard hardware and software, the TC1100 provides guaranteed compatibility and reliability, plus flawless operation out of the box – including a short boot-up time and long battery life.

Travel with ease and confidence

- The TC1100 has proven strength and durability – including a magnesium-alloy casing that is twenty times stronger than plastic, plus an improved shock-resistant, hard-tempered glass display.
- Need the flexibility to take even less with you when you go? You can use the TC1100 as a notebook without its keyboard – simply detach it in seconds.

Stay in touch

- Stay informed when away from your desk. Connect to your network or the Internet via integrated wireless LAN, for vital data and e-mail access on the move.
- You can also connect wirelessly to your peripherals and personal area network (PAN) through the integrated Bluetooth™ and Fast IR features.

Convert it as a tablet

Make handwritten notes on-screen as you would on a paper notepad, or write directly into your existing applications.

Pen and paper for the digital age

- Draw, design and exchange ideas on the go using digital-ink technology.
- Change the ink colour, add highlights, insert spaces or italicise.
- Work in your choice of portrait or landscape format.

No more searching for paper

- Take as many notes as you want, whenever you want. With ample storage space, they're all kept safely in one place for easy recovery.
- Locate specific notes quickly using the electronic search function.

Improve business etiquette

- With the casual, open style of the HP Compaq Tablet PC, there's no screen to separate you from your customers in meetings. No distracting keystrokes. Just the natural feeling of a pen in your hand.

Expand it into a desktop

The HP Compaq Tablet PC TC1100 is perfect for working on the move. Yet it also delivers the full functionality of a desktop.

Performance that keeps pace

- Innovative Intel Pentium-M (Centrino-technology) processing lets you multi-task and stay productive all day.
- An improved graphics controller provides rich on-screen graphics, even for intensive applications.
- Store all the data you need with ample hard-drive capacity.

Effortless expansion

- Slide it into the optional docking station to work with a full-sized keyboard, mouse and monitor.
- Connect to an External MultiBay cradle for additional storage and media drives.
- No need to replace existing options. The TC1100 is fully compatible with HP commercial notebooks and older Tablet PC models.

Security and easy management

- Easy-to-download manageability agents ensure simple integration and operation.
- Once in place, a host of integrated security features offer the protection you need.

The HP Compaq Tablet PC – in action

Senior executives at Hubert Burda Media, one of Germany's largest publishing houses, are using the pen-and-paper functionality of HP Compaq Tablet PCs to record information in more flexible, creative and effective ways. By recording their ideas as sketches and mind maps, they can avoid the hassle of filing and searching for paper-based notes and documents.

"For me, the HP Compaq Tablet PC is a fully functional notebook PC, a mind map and, above all, a creative working tool. In the past,

I had to adapt to the technology I used, but now it is the other way round. However I want to work, the HP Tablet PC supports me. All creative people should have one."
Stephanie Czerny, Director of corporate strategy, Burda

A Berlin hospital, KEH, is using HP Compaq Tablet PCs to improve the continuity and coordination of care across different disciplines and sectors. Doctors and nurses can now record information instantly as they do their patient rounds. And the mobility and flexibility of the new PCs has proved vital in supporting the implementation of diagnosis-related groups (DRGs) and clinical pathways.

"We realised that mobile technology was crucial to our new procedures. The HP Compaq Tablet PC, with its wireless LAN card and the flexibility to act as a desktop, notebook or digital notepad, was the perfect solution. Its versatility is greatly appreciated: some people enter data in handwritten form, others use the keyboard. Not surprisingly, staff all over the hospital are keen to get their hands on one of these machines."
Bernhard Tenckhoff, medical doctor, KEH Hospital

HP Compaq Tablet PC TC1100 specifications

Processor	Intel Pentium M from 1.0 GHz (Centrino-technology) or Intel Celeron from 800 MHz (Intel 855PM chipset)
Graphics	NVIDIA GeForce 4 Go 420 graphics controller with 32-MB dedicated DDR memory (4X AGP)
Memory	512-MB/333-MHz DDR RAM (Pentium-M/Centrino) or 256-MB/266-MHz DDR RAM (Celeron), expandable up to 2 GB maximum
Hard drive	SMART hard drive 30 or 40 GB (4200 rpm) or 60 GB (5400 rpm)
Display	10.4-inch TFT XGA; wide viewing angle, hard-tempered glass covering
Wireless support	Type III Mini PCI integrated WLAN (802.11b WLAN and 802.11a/b/g WLAN options) Integrated Bluetooth™ ¹
Communications	Integrated 56K (V.92) modem and 10/100 NIC
Audio	2 integrated speakers, support for stereo headsets and mono headsets, support for stereo mic input
Battery	6-cell Lithium-Ion technology, system-bridge battery for fast battery swapping while in standby mode
AC adaptor	External 65W adaptor
Ports/Slots	Fast IR port, 2 x USB 2.0, RJ-45 (NIC), RJ-11 (modem), VGA, Type III CardBus expansion slot
Input	Battery-free pressure pen with tether (optional eraser pen) 95% keyboard with pointstick (removable)
Operating system	Microsoft Windows XP Tablet PC Edition
Dimensions	27.4 x 21.6 x 2.0 cm (10.8 x 8.5 x 0.8 in.)
Weight (minimum)	Tablet PC only: 1.4 kg (3 lbs); Tablet PC with keyboard: 1.8 kg (4 lbs)
Docking solutions	HP Compaq Tablet PC Docking Station
MultiBay	Optional External MultiBay providing access to common MultiBay drives with notebooks offered by HP, such as a diskette drive, DVD/CD-RW combo, DVD-ROM, CD-RW and CD-ROM
Management features	PXE boot support, DMI 2.0, pre-failure alerts (warranty battery, processors and hard drives), Web agents; also supports Intelligent Manageability and Altiris Express (not pre-installed, available for download)
Security features	Power-On Password, WLAN security lock, DriveLock, 2 x HP Security Locks

Note: Exact products and specifications shown may vary by country.

¹ A standard WLAN infrastructure, other Bluetooth™-enabled devices, and a service contract with a wireless airtime provider may be required for applicable wireless communication. Wireless Internet use requires a separately purchased service contract. Check with service provider for availability and coverage in your area. Not all web content available.
